

INSTITUTE OFFERS DIVERSITY OF TRAINING TO MEET CAREER ASPIRATIONS

The South West Institute of Technology offers you the opportunity to develop your knowledge and skills through an extensive variety of training programs including vocational qualifications, apprenticeships and traineeships to gain entry to employment or to enable mature age students to improve their prospects or even embark on a new career.

There is a raft of new courses on offer in 2012 in a range of study areas. Innovative and responsive to the contemporary environment, the Institute will be offering courses in telecommunications and has added several new certificate programs in digital and web based technologies. Within the health and community services field there are new certificate courses in Allied Health Assistance and the dual Diplomas of Community Services Work and Co-ordination that offer attractive employment possibilities. Courses are also on offer for plumbing pre-apprenticeships, entry level skill sets for construction as well building supervisor training.

Qualifications in Art and Design, Applied Science, Building and Construction, Business Studies, Design and Drafting, Health and Community Services, Commercial Cookery, Conservation and Land Management, Engineering, Fashion, Health and Fitness, Hospitality, Tourism Surveying and Viticulture are just some of the diverse options that you could consider as a pathway to a rewarding and satisfying career.

There's no better time to invest in your future and, with places available in full time and part time courses, our Information and Career Advisory Service Officers can provide you with details on the training pathways to your chosen career or you can explore our website and view our online brochures at www.swit.wa.edu.au

Part time enrolments take place on 30 and 31 January 2012 at our Bunbury, Busselton, Collie, Harvey, Manjimup and Margaret River campuses. To register your interest in our courses, contact our friendly Course Information Officers at the Bunbury Campus on (08) 9780 7070 , free call 1800 621 445 or contact our regional campuses to discuss your training needs.
